

HAFIZ SHAHEED UL ISLAM

Full Stack Developer | Laravel · React.js · Node.js · CodeIgniter

Karachi, Pakistan | +92 307 2241918 | +92 341 2427229 | shaheedkhan336@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience building scalable web applications across Laravel, React.js, Node.js, and CodeIgniter. Specialized in REST/GraphQL API development, multi-tenant SaaS systems, ERP/CRM platforms, and real-time applications. Proven track record delivering enterprise systems supporting 500+ concurrent users with optimized performance and secure, role-based authentication.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: Laravel, CodeIgniter, PHP (OOP/MVC), Node.js, Express.js

Database: MySQL, Oracle, MongoDB, PostgreSQL

Real-time & APIs: REST API Development, GraphQL, Socket.io, Stripe, PayPal

DevOps: AWS (EC2, S3, RDS), Docker, cPanel, CI/CD Pipelines

Tools: Git, GitHub, Postman, VS Code, Jira

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer — Hamdard University

May 2024 – Present

- Built a nationwide Q-Bank system (Laravel + React.js) serving 500+ users across multiple campuses, with exam generation and analytics dashboards
- Developed ERP modules (HR, Payroll, Finance) using Laravel and React.js, improving operational efficiency by 40% by automating previously manual workflows
- Designed Role-Based Access Control (RBAC) architecture supporting 100+ granular roles with JWT-based authentication, reducing unauthorized access incidents
- Optimized database queries and API response times, reducing average page load time by 35%

Full Stack Developer — Kdys Lab

Aug 2023 – May 2024

- Built scalable eCommerce and CRM systems handling 1,000+ daily transactions with real-time reporting dashboards
- Developed and documented REST APIs; integrated Stripe and PayPal payment gateways, reducing checkout and reconciliation friction
- Implemented background job queues in Node.js, improving system throughput by 30% under peak load
- Built Node.js backend services with asynchronous task handling for API-heavy operations

PHP Laravel Developer — Midline Presence

Apr 2022 – Aug 2023

- Built and maintained REST APIs consumed by web and mobile clients, ensuring consistent data contracts across platforms
- Managed AWS infrastructure (EC2, S3, RDS) deployments, improving deployment reliability
- Optimized complex SQL queries, improving reporting speed by 25%

Junior Laravel Developer — DivsnPixel

Oct 2021 – Apr 2022

- Developed backend modules and REST APIs for client-facing applications
- Built CodeIgniter-based REST API modules (product/category management, authentication) alongside Laravel projects
- Implemented role-based access control for a student CRM system (CodeIgniter), covering enrollment, fee, and counselor-assignment workflows

Intern / Junior Developer — Connect Marketing Communication (Pvt.) Limited

Dec 2019 – Sep 2021

- Promoted from Intern to Junior Developer based on performance
- Built and maintained web applications using PHP and Laravel

- Built responsive front-end pages using HTML, CSS, and JavaScript
- Collaborated with the marketing team to deliver client websites and landing pages

KEY PROJECTS

Q-Bank System (Hamdard University): Nationwide exam system built with Laravel + React.js, serving 500+ users with exam generation and analytics.

ERP System (Hamdard University): Multi-module ERP (HR, Payroll, Finance) built with Laravel, React.js, and MySQL.

SaaS Dashboard: Multi-tenant platform built with Laravel, React.js, Next.js, Docker, and AWS — isolated data environments per organization.

Lab Optimal — Medical Lab Platform: Real-time patient/lab management system built with Node.js, React.js, and Socket.io.

EdgieDev — Developer Blog: Full-stack blogging platform with Node.js, React.js, MongoDB, and GraphQL API.

CI Pro API: CodeIgniter 3-based REST API application with authentication, product/category management, and admin dashboard.

Collage CRM: Student CRM built on CodeIgniter with enrollment tracking, fee management, and counselor assignment.

EDUCATION

Bachelor – Computer Science | Newports Institute of Communications & Economics (NICE) | 2018 – 2022

CERTIFICATIONS

ACCP Pro – Software Engineering | Aptech Computer Education | 2016 – 2018

KEY ACHIEVEMENTS

- Delivered enterprise-grade systems actively used by 500+ users
- Improved application performance by up to 40% through query and architecture optimization
- Designed and deployed scalable multi-tenant SaaS architectures on AWS using Laravel, React.js, and Docker
